

# Semester One Awards of Academic Achievement 2024

The Semester One awards do not have marks as the main consideration.

The students we are recognising today are those who received the most nominations from their teachers for their positive approaches to their studies. Many additional students were nominated by one or two teachers, and you will receive your certificates from your Year Level Leader.

A reminder that the criteria that teachers considered when nominating the students are:

- Substantial growth in learning
- Determination and perseverance
- Independence of learning
