

Semester One

Learning Achievement Awards

7 August 2025

The Learning Achievement Awards Assembly celebrates those students who have demonstrated significant leadership through their own engagement with the process of learning.

The students who received these awards had been recognised and nominated by their teachers, from their observations of the positive demeanour and dispositions that they bring to our classrooms.

The Semester One awards do not have academic marks as the main consideration.

The following students are those who received the most nominations from their teachers for their positive approaches to their studies.

A reminder that the criteria that teachers considered when nominating the students are:

- Substantial growth in learning
- Determination and perseverance
- Independence of learning
- Creative and innovative thinking
- Classroom leadership and initiative
